PORTOFOLIO

LOVIEJECHONIA TONIMBA

Business Information Systems undergraduate with a strong interest in data analytics and business intelligence. I enjoy exploring new technologies, solving problems, and continuously developing my knowledge and skills.

This portfolio showcases my academic projects, skills, organizational experiences, and achievements. Each experience reflects my learning journey, curiosity, and commitment to continuous growth in business and technology.

ABOUT ME

I am currently pursuing an **Applied Bachelor's degree in Business Information Systems at State Polytechnic of Malang**, with a GPA of 3.88. Through coursework and collaborative academic projects, I have developed knowledge and **experience in data analysis and information systems development.**

My **involvement in student organizations and communities** has strengthened my communication, teamwork, leadership, and project coordination skills. I am particularly **interested in Data Analytics and Business Intelligence**, with a strong enthusiasm for learning new technologies and continuously developing my professional skills.

ORGANIZATIONAL EXPERIENCE

Actively involved in various student organizations and communities to develop leadership, communication, teamwork, and event management skills.

ACADEMIC PROJECTS

Starting in my third semester, I have been actively working on project-based learning projects (PBL), and I continue to do so now in my fifth semester. This has inspired me to apply the lessons I've learned to the professional world.

WEB-BASED BUSINESS ANALYTICS LABORATORY

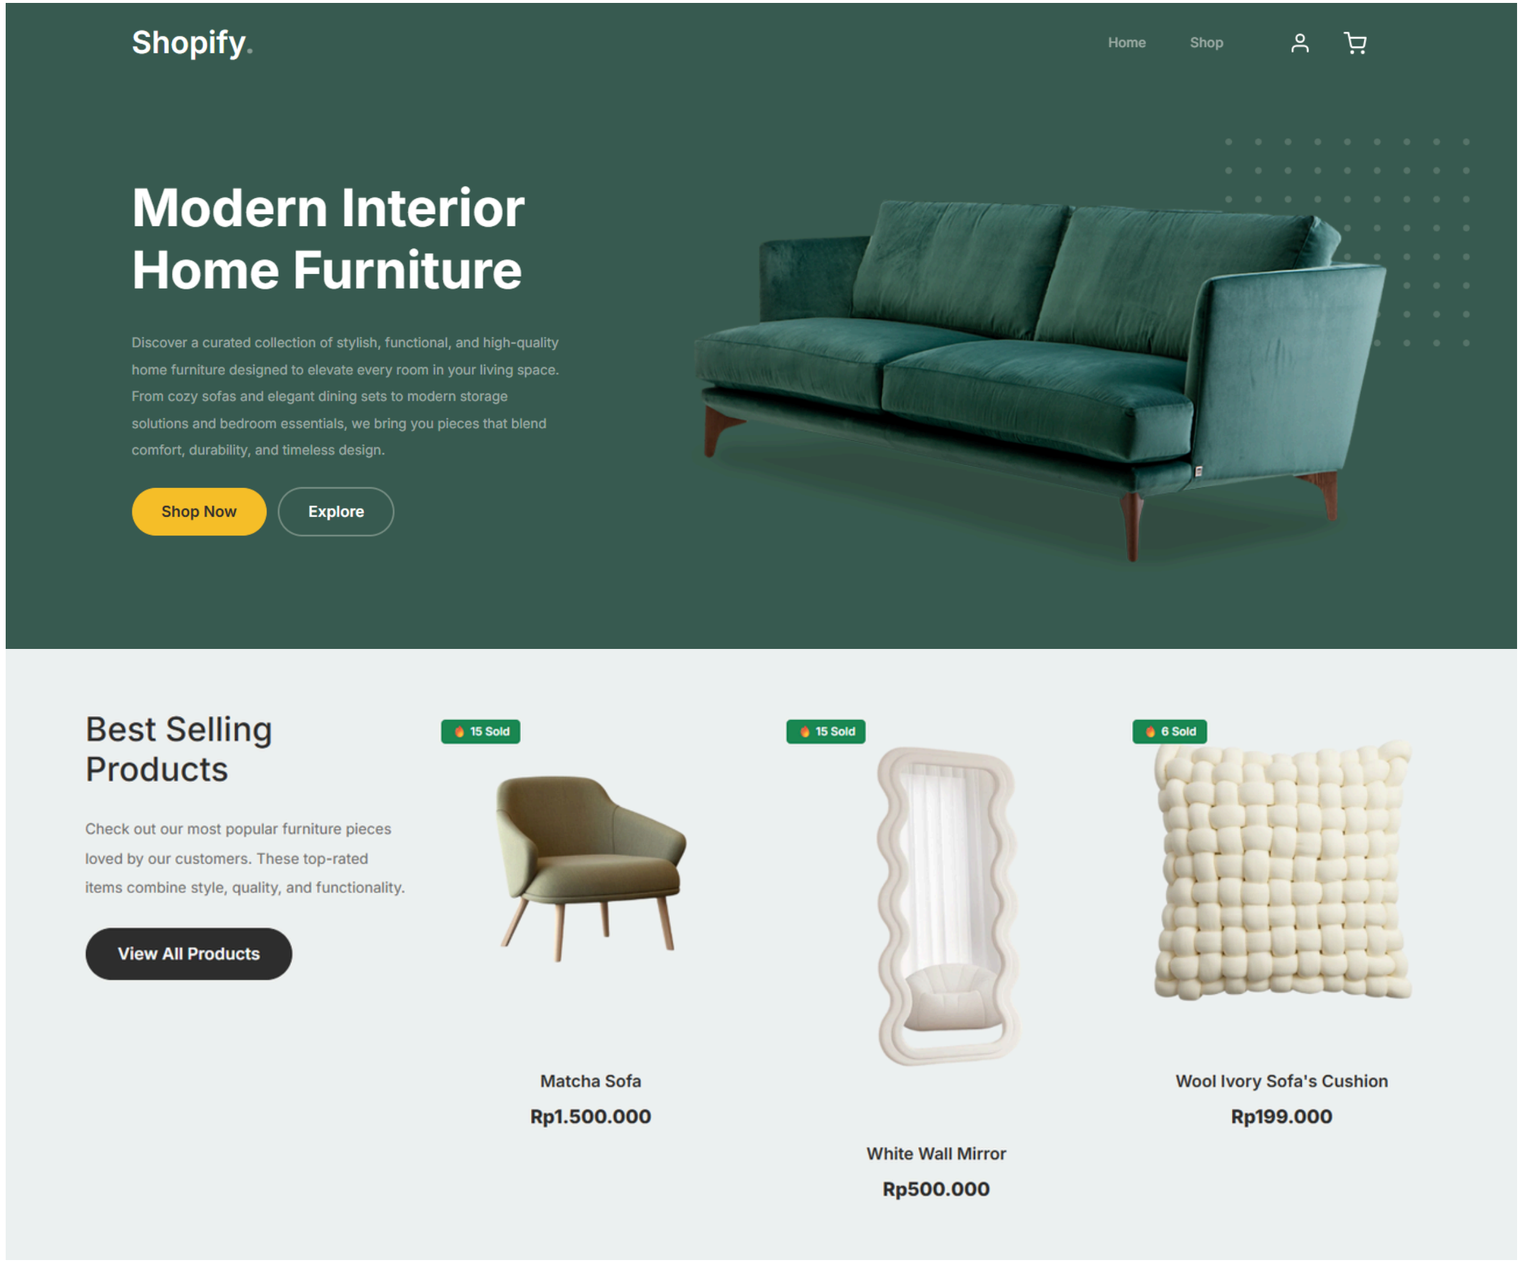

PROJECT 1 (2025)

Developed a web-based laboratory borrowing management system featuring laboratory reservations and borrowing management.

- Role: Backend & Frontend Developer, Database Design
- Tools: PHP, HTML, CSS, JavaScript

HTTPS://GITHUB.COM/ALYFAZEHA/PBL_LABBUSINESSANALYTICS-SIB2G-.GIT

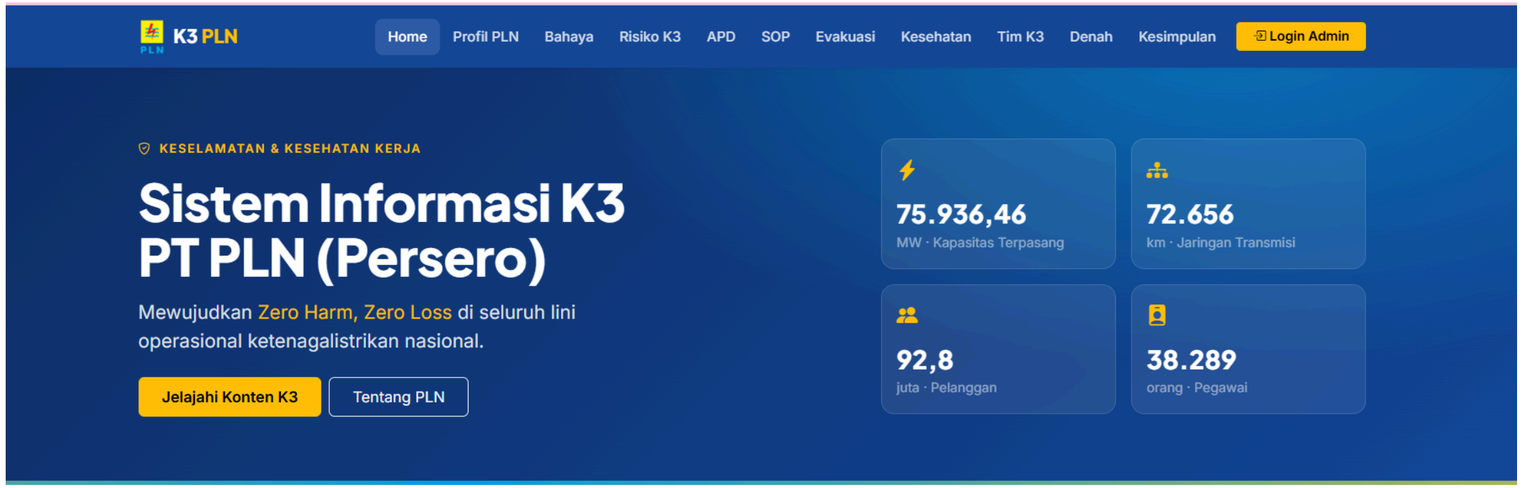

WEB-BASED RETAIL MANAGEMENT SYSTEM

HTTPS://GITHUB.COM/CHIQUIXS/WEB-RETAIL.GIT

PROJECT 2 (2025)

Developed a web-based retail application as the final project for the Advanced Database course.

- Role: Backend Developer
- Tools: PHP, JavaScript, CSS

WEB-BASED RETAIL MANAGEMENT SYSTEM

PROJECT 3 (2026)

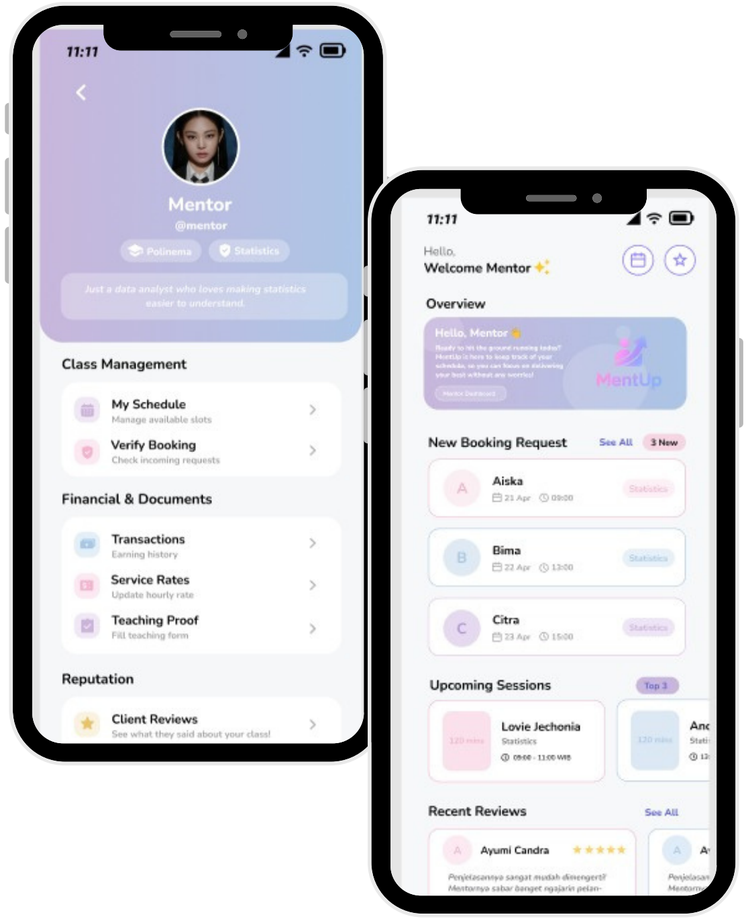

Developed a web-based K3 management platform to support operational standards and safety management processes for PT PLN (Persero).

- Role: Full-Stack Developer, Database Design
- Tools: Laravel, PHP, Supabase (PostgreSQL), Bootstrap, Git/GitHub, Railway

HTTPS://GITHUB.COM/FAEL83/K3-WEB-PLN.GIT

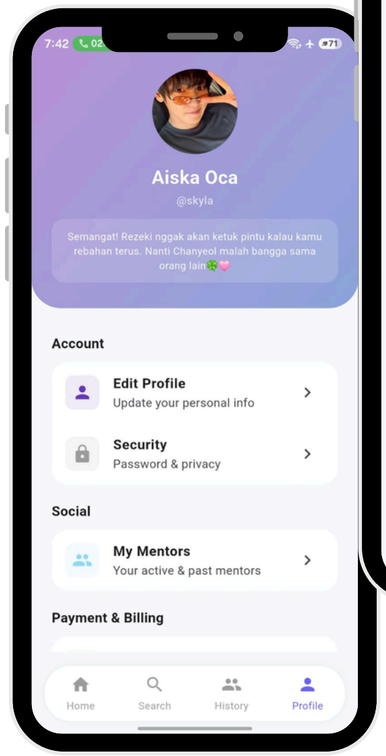

MOBILE APP – MENTUP

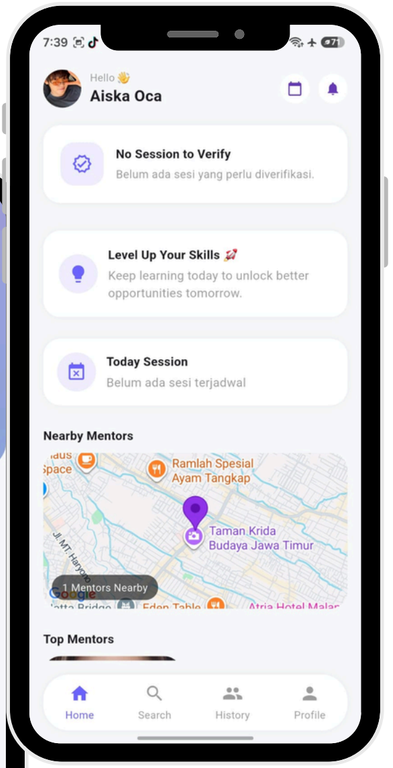

PROJECT 4 (2026)

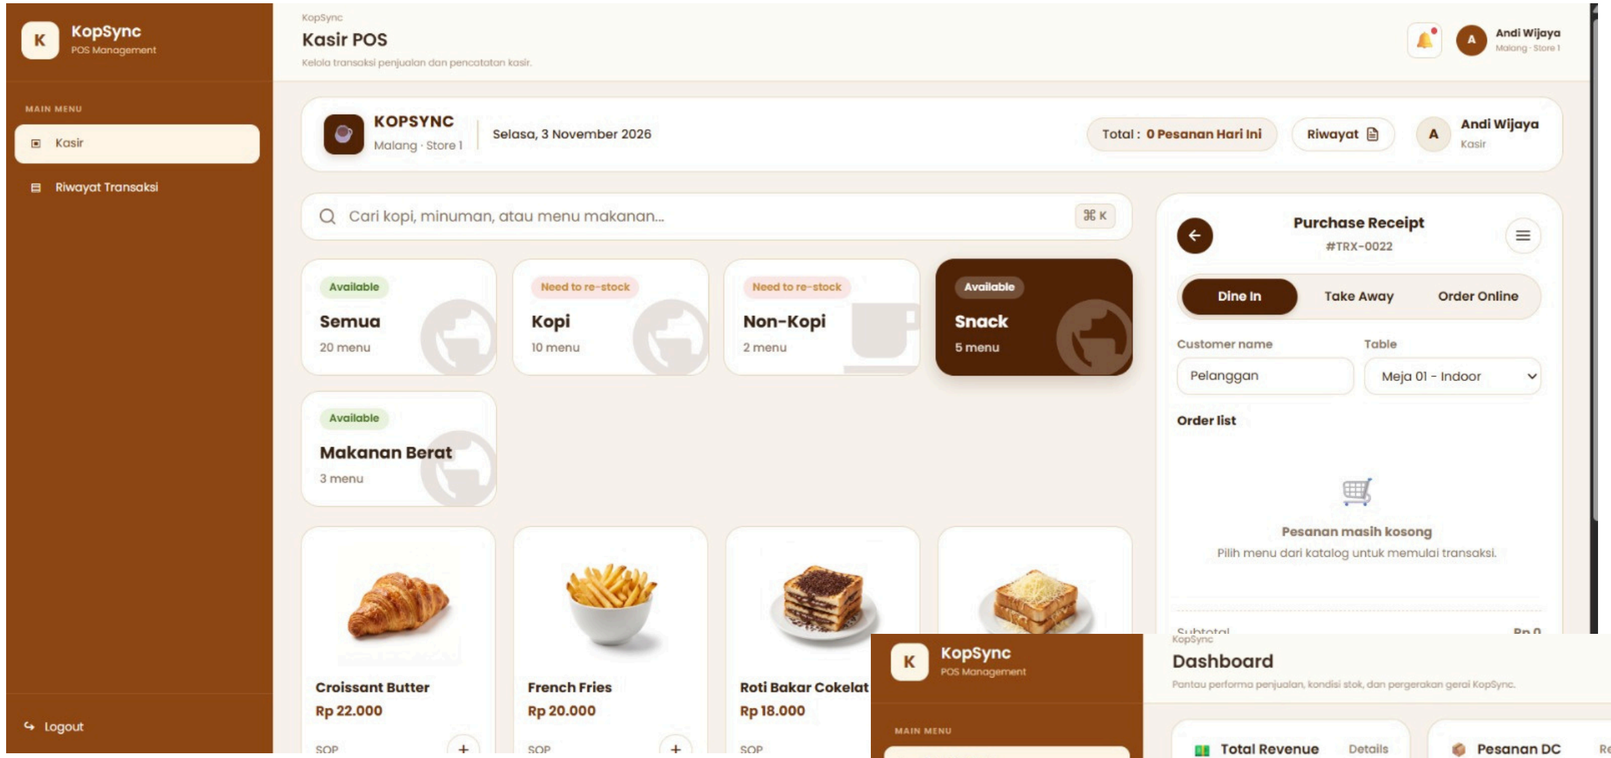

Developed a location-based mentoring application connecting clients with professional mentors, featuring category filtering, scheduling management, and WhatsApp communication.

- Role: Frontend Developer
- Tools: Flutter, Laravel, PHP, Filament, REST API, Git/GitHub, Postman, Duitku Payment Gateway

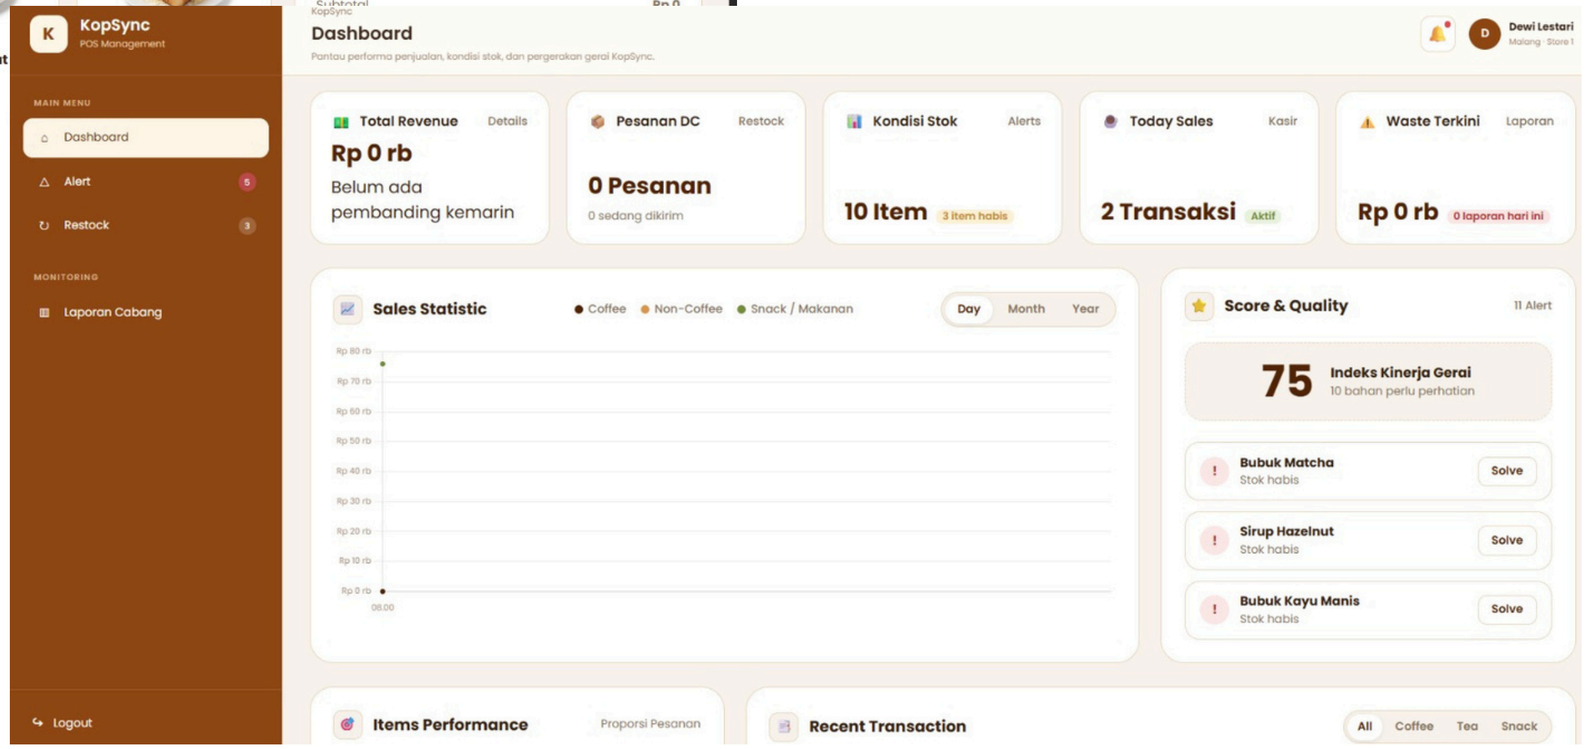

HTTPS://GITHUB.COM/ANDRNSHV/PBL_FLUTTER-MENTUP_GROUP2.GIT

POS & MULTI-BRANCH INVENTORY MANAGEMENT SYSTEM "KOPSYNC"

HTTPS://GITHUB.COM/HABYY-SANS/PBL-SEMESTER-5.GIT

PROJECT 5 (2026)

Currently developing a web-based POS and multi-branch inventory management system for a coffee shop, supporting sales transactions, ingredient stock monitoring, and inventory distribution across branches.

- Role: Project Manager, Backend Developer, Database Design
- Tools: Laravel, Supabase (PostgreSQL), HTML, CSS, Tailwind CSS, JavaScript

LOVIE’S PORTOFOLIO 2026

THANK YOU
